DESCRIPTION

The flange / flangeless REGRESSED LENS is a led lighting system that exposes the lens with a 1.5" drop from a gypsum or a grid ceiling. This clean, crisp light becomes one with the environment in vertical, horizontal, diagonal and other geometric shapes and forms. The drop lens style system artistically illuminates walls and ceilings in spectacular fashion. Lobbies, hallways and public spaces with never be the same. Complex corners share the spaces, working integrally with the spackle flangeless system.

LIGHT DISTRIBUTION

1. HOUSING

To be formed from extruded aluminum 6063t5
 Finish: Baked white enamel (standard)
 Indirect Lighting (standard)
 All fixtures are pre-wired
 All steel parts are phosphate treated for corrosion resistance before painting procedure and then baked with superior adhesion for durability

2. DRIVER

0-10V Dimming with a range of 10% - 100% (integral)
 Voltage: 120/277 VOLTS (universal) 50/60HZ
 CBM/ETL Certified CLASS 2. Dual circuited
 UL/ETL Recognized components, ROHS Compliant with integral occ sensor

3. LED ARRAY

Mid power FR4 LED LM80 Tested
 (Factory installed) LED imaging not visible
 Flicker free (standard)

4. REFLECTOR

To be formed from 20GA. aluminum
 Finish: White (standard)

5. DIFFUSER

.125" frosted acylic dropped lens
